

Sean Wallbridge

Technology. Music. Human connection.

Helping people and ideas find and tune their signal.

Entrepreneur, technology leader and musician.

Thirty-plus years of building businesses, products and teams - with curiosity, practical judgment and a little useful mischief.

THE SHORT VERSION

I connect technical possibilities with the people who will actually use them. My background spans Microsoft cloud consulting, enterprise security, SaaS product development and live performance. I ask useful questions, find patterns in messy situations and help turn an idea into something people can use.

Today, my focus is Rockstar Antics, Rockstar Bingo and Rockstar Nights: entertainment technology and live experiences that bring people together. AI is another practical tool in that work - for exploring ideas, building prototypes and making complex things easier to approach.

WHAT I BRING TO THE ROOM

Clarity before complexity.

Business and technology strategy, product direction, process improvement and a grounded second opinion when a decision or project is stuck.

Experience that reaches the working details.

Leadership, cloud platforms, automation, vendor conversations and the work of building, testing and refining software. The goal is something useful, not another impressive-looking slide.

A feel for people, as well as systems.

Years on stage and in the community shape how I communicate, facilitate and connect. Technology works best when it helps people participate.

30+ years in technology / **10 Microsoft MVP awards**

6 technical books authored or edited / **14 countries** toured as a drummer

Have something in mind? Tell me what you are building, where it is stuck and what a useful outcome would look like. We can talk through the fit and scope.

The work behind the perspective.

CURRENT WORK

Rockstar Antics Entertainment Inc. | Founder & President | January 2021-present

Founded the company on January 22, 2021. Lead company vision, strategy and operations, including product direction, development oversight, feature testing and releases, marketing, sales, advertising, billing and accounting oversight. Plan participatory events and experiences involving music, movement and gameshow facilitation.

Rockstar Bingo | Product, platform and participation

Created and launched a music bingo SaaS platform. Lead its brand, product development and marketing, translating host and player needs into new features. Players have joined from more than 30 countries.

rockstar.bingo

Rockstar Nights | Entertainment that gets the room involved

Live band, music bingo, karaoke and a dance party in one experience. Part of the Rockstar Antics focus on using music and technology to create connection. rockstarnights.ca

I have built many other apps and websites along the way. These are my current focus; the experience behind them is broader. rockstarantics.com

CAREER FOUNDATION

Regroove / itgroove | Founder, President & Principal Consultant | 2003-2023

Founded itgroove in Victoria, BC, bringing international consulting experience to local businesses. Grew the firm to more than 20 employees and built a team that included six Microsoft MVPs. Led the business through the 2008 recession and its 2018 rebrand to Regroove and cloud-first direction.

Led technology initiatives for organizations of 10 to 10,000 people across Canada, Bermuda, the US and the UK. Worked with businesses, nonprofits and municipal, provincial and federal government. Combined strategic direction with enterprise systems, cloud migration and organizational change.

Developed Navo, a Microsoft 365 navigation SaaS product adopted across a dozen industries. Built a consulting practice around Microsoft technologies while contributing through speaking, blogging and technical publishing.

EARLIER VENTURE

Fünketown | Co-founder

Co-founded a holistic, experiential wellness space for exploration of mind, body and spirit. Its guiding idea: create a place of curiosity and leave people better than we found them.

Depth, range and a human side.

EARLIER CAREER

Bermuda & international consulting | 1998-2003

Senior Consultant at NexGen Technologies; Principal Consultant at Sbi; Vice President of Special Projects at QuoVadis. Delivered enterprise infrastructure and security work across Bermuda, Cayman, Ireland, France, Switzerland, the UK and the US. Helped build QuoVadis' offshore digital certificate authority, participated in its root signing ceremony and developed QuoVadis Sweeper, a SaaS email security solution.

SHL Systemhouse / EDS | Technology Consultant | 1995-1998

Early MCSE on Windows NT 3.51. Designed enterprise server farms for major corporations and government organizations.

Pacific Coast Savings | Operator & Developer | 1993-1995

Supported large-scale banking infrastructure, combining operations and development.

Up with People & Carnival Cruise Line | Musician & Production Tech | 1991-1993

Toured 14 countries and 192 cities as a drummer and production technician.

RECOGNITION & LEARNING

10 Microsoft MVP awards, spanning SharePoint and Office 365, recognizing community contributions through speaking, writing and sharing knowledge. **Six Microsoft technical books** authored or edited; more than **90 industry exams** passed over a career of continuous, experience-based learning.

Certifications achieved during my career: MCSE (NT 3.51, NT 4.0 and Windows 2000), CISSP, Microsoft Certified Trainer and Compaq Server Engineer. These are historical achievements, not a statement of current certification status.

BREADTH OF EXPERIENCE

Business and technology advisory; leadership and executive coaching; organizational change; product development, marketing and automation; Microsoft 365, SharePoint, Teams, Azure and migrations.

Sectors served: music and entertainment, sports, technology, ecommerce, banking, insurance, all levels of government, security, wellness, retail, manufacturing, education and training, healthcare and life sciences, hospitality and tourism, legal and compliance, nonprofits and charities, energy and sustainability.

CONNECTION IS THE THROUGH-LINE

Make-A-Wish Foundation | 2008-2023: led more than 150 wish experiences for children and families. Hosted podcasts including *Dude Diligence* and *But Wait, There's More... with Dr. Eleanor*.

My personal explorations include energy maps, astrology, Gene Keys, Reiki and sound, alongside a curiosity about consciousness and how people make meaning. The practical aim is listening, reflection and connection.

My compass: Playfulness. Connection. Integrity. Faith. Freedom.

Tell the truth. Do the right thing, and do the thing right. Start with why.

Let's start a conversation. 305.684.0828
